

Country Life Kids Camp

EDventurer's Club After-School Voice Lessons

Please Note: All vocal lessons require the use of a headphone with an attached microphone (EarBuds or AirPods are an example). Ages 10 and up are encouraged to have noise reduction headphones with a microphone, but not required.

Age Level	Program	Description
Ages 10-13	Intro to Voice 	There is more to singing than meets the eye. When we sing it can benefit our physical and mental health! Learn how the voice works using vibrations, consonants, and warm-ups. Sing-along and discover your vocal talent. Did you know that singing is a full body experience? Discover how to include dance movement with your singing to make sure your voice is strong and healthy. Learn about voice types and build your vocal repertoire. Find your genre, unlock your style, and plan performances for your future. In singing we use words and music which is written by a composer. Become a composer and learn about song writing using "Vocal Mad Libs" to create your own words to your favorite songs.
Ages 10-13	Intro to Musicianship 	Our voice is our instrument! Learning to read music and repeating it back greatly improves muscle memory. Engage in "call and response" activities and practice the science of audiation. "Do, a deer a female deer. Re, a drop of golden sun." Learn solfege, a system of unique symbols for each note of a scale with the addition of Curwen hand symbols to accompany. What is a scale? We'll learn about that too! "And a one, and a two, and a one, two, three...!" Music comes from the heart quite literally; our heartbeat is like the beat of music. Discover how to keep the beat and follow-along to patterns that will refresh or introduce new rhythmic concepts. Test your skills in an "Among us" style rhythm game. "Sing, sing a song," using our age- specific solfege, rhythm, and audiation knowledge we can learn and rehearse a song. The best part of singing is when we sing together. We will combine our voices and skills to learn a song.
Ages 10-13	Intro to Theatre 	Start your theatre experience with classic drama games to break-the-ice with your peers and showcase your unique artistic talent. Step into improvisation and learn how to think on your feet in scenes. In theatre, we can mix words and music which is called, musical theater. Become a composer and learn about song writing using "Musical Theater Mad Libs" to create your own words to your favorite melody. Steal the show with a monologue, a speech for a single character. Write your own as a form of self-expression or learn about monologues to practice in theater. Act out a dramatic or comedic scene with your peers for your audience. Learn how a character interreacts with other characters in the scene, emphasizing their emotions and potential expressions.
